

Recommended Journals for Mobile Application Development

1. IEEE Transactions on Mobile Computing (IEEE)
2. ACM Transactions on Software Engineering and Methodology (ACM)
3. Journal of Systems and Software (Elsevier)
4. Mobile Information Systems (Hindawi Publishing)
5. International Journal of Mobile Human Computer Interaction (IGI Global)
6. International Journal of Interactive Mobile Technologies (iJIM)
7. International Journal of Mobile and Blended Learning (IJMBL)
8. Journal of Mobile Multimedia (Rinton Press)
9. IEEE Access (Open Access Journal for Engineering and Technology)
10. ACM Transactions on Mobile Computing and Communications Review (ACM)
11. International Journal of Mobile Computing and Multimedia Communications (IJMCMC)
12. Journal of Computer Networks and Communications (Hindawi)
13. Wireless Communications and Mobile Computing (Wiley)
14. Journal of Mobile Technology in Medicine (JMIR Publications)
15. International Journal of Emerging Trends in Engineering Research (IJETER)
16. International Journal of Computer Applications (IJCA)
17. International Journal of Advanced Computer Science and Applications (IJACSA)
18. Journal of Software: Evolution and Process (Wiley)
19. International Journal of Mobile Network Design and Innovation (Inderscience)
20. Journal of Information Technology and Mobile Communication (SpringerOpen)

These journals are suitable for research papers, project work, and literature reviews related to Android development, mobile computing, and application engineering.
